

Welcome to the previously unseen world of **insights-driven** vendor performance.

### The Practical Benefits of Greater Vendor Visibility

- Reduce vendor-related write-offs
- Eliminate uncollectible balances on lost accounts
- Prevent vendor overbilling
- Review vendor contracts
- Accelerate cash collections
- Monitor activities relative to KPIs
- Expedite inventory reconciliation
- Verify vendor invoices
- Oversee performance trending
- Leverage existing data files

Ensure your revenue cycle vendor team is thoroughly **transparent**, instead of virtually invisible.

Performity<sup>SM</sup> introduces an audited, analytical overview of vendor performance. Providing insights from a team with more than 100 combined years of revenue cycle expertise that leverages Vtrak<sup>TM</sup>—a cloud-based dashboard that quickly reveals the potential for improvement hidden in your existing data.

“I’ve been in hospital financial management for 30 years, and I feel like we’re ‘navigating in the dark’ when it comes to managing the vendors involved in the revenue cycle.”

Senior Vice President, Revenue Cycle

## Visibility, Validation, and Shared Intelligence

Performity's audited, analytical viewpoint leverages the synergistic power of shared intelligence to provide actionable management insights for individual hospitals or systems.

- Discover exactly how vendors perform using your existing data
- Acquire the validation and insights to make informed decisions
- Gain control over bottom-line results

## A Seasoned Team of Revenue Cycle Experts

Hospital specialists with more than 100 years of combined revenue cycle experience review your organization's data and rapidly handle the time-consuming work essential to analyze, optimize and validate vendor performance.

- Defining or confirming your outsourcing strategy
- Establishing standardized KPIs and SLAs
- Setting expectations
- Determining the appropriate scope for inventory placement and reconciliation
- Mitigating risk

## Cloud-Based, Vendor-Performance Dashboard and Reporting

Performity's Vtrak revenue cycle vendor dashboard swiftly aggregates and combines current data from your system.

- Displaying performance summaries
- Generating standardized and organized reports customized for each of your vendor partners
- Letting you quickly view current performance trends based on your defined strategy
- Identifying underperformance

## The Benefits of Insight-Driven Management

Insights that validate your outsourcing strategy. Visibility that reveals true vendor performance. Intelligence that helps identify and rapidly address any problems. Performity's capabilities empower you to:

- **Improve Performance** by visualizing it and holding vendors accountable
- **Reduce Risk** by identifying it before it impacts your bottom line
- **Save Time** by simplifying the process of managing multiple relationships
